SEAMLESS EVIDENCE DISPLAY

**OSTENTUS IS A FULLY INTEGRATED APPLICATION DELIVERING POWERFUL PRESENTATION FUNCTIONALITY IN RELATIVITYONE.**

**PREPARE FOR AND PRESENT YOUR EVIDENCE AT HEARINGS WITHOUT YOU OR YOUR DATA EVER LEAVING THE RELATIVITYONE ENVIRONMENT.**

### Seamless integration and security

Ostentus eliminates the need to export data at one of the most critical and decisive points in the litigation process. Users retain access to the full suite of RelativityOne functionality and case analysis when preparing for and attending examinations and hearings. This seamless integration simplifies workflows and reduces cost, effort and error. It also continues to deliver the ongoing protection of Relativity's Calder7 team of security experts, safeguarding your evidence.

### Prepare and perfect your presentation

Legal teams can simply and cleverly prepare and sequence evidence for presentation, recording the exact documents and pages to be shown to a witness. Leverage Practice Mode before hearings to hone your case strategy and examination techniques. By simulating witness examinations and mock trials, Ostentus users develop tested, stronger and more compelling case presentations.

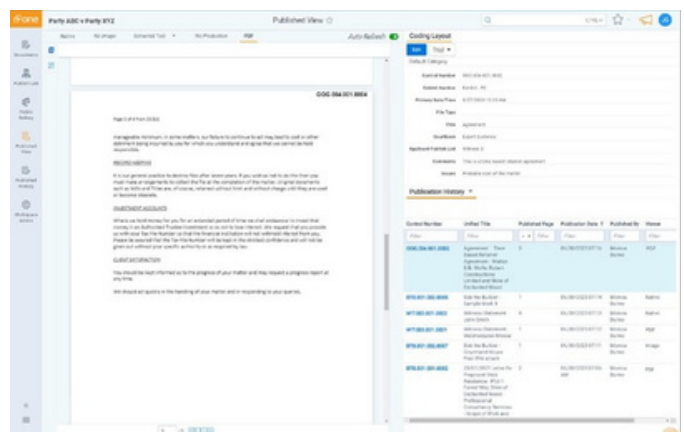

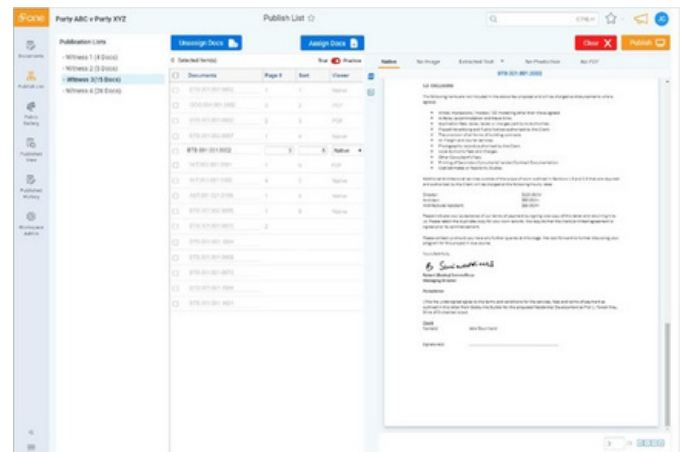

### Dynamic and personalized interaction

Unlike static evidence presentation systems, Ostentus empowers hearing participants to independently interact with the presented evidence, just as they would with paper - zooming, scrolling, and examining with ease. Witnesses see only the presented evidence while your legal team retains full access to all existing analysis, annotations and functionality in RelativityOne.

### Full control and flexibility

Take charge of the presentation process yourself, or engage a hot-seat operator. The choice is yours. Ostentus allows the presenting party to control the display cadence that best suits their witness examinations.

**OSTENTUS BRIDGES THE GAP BETWEEN EVIDENCE ANALYSIS AND ADVOCACY IN RELATIVITYONE.**

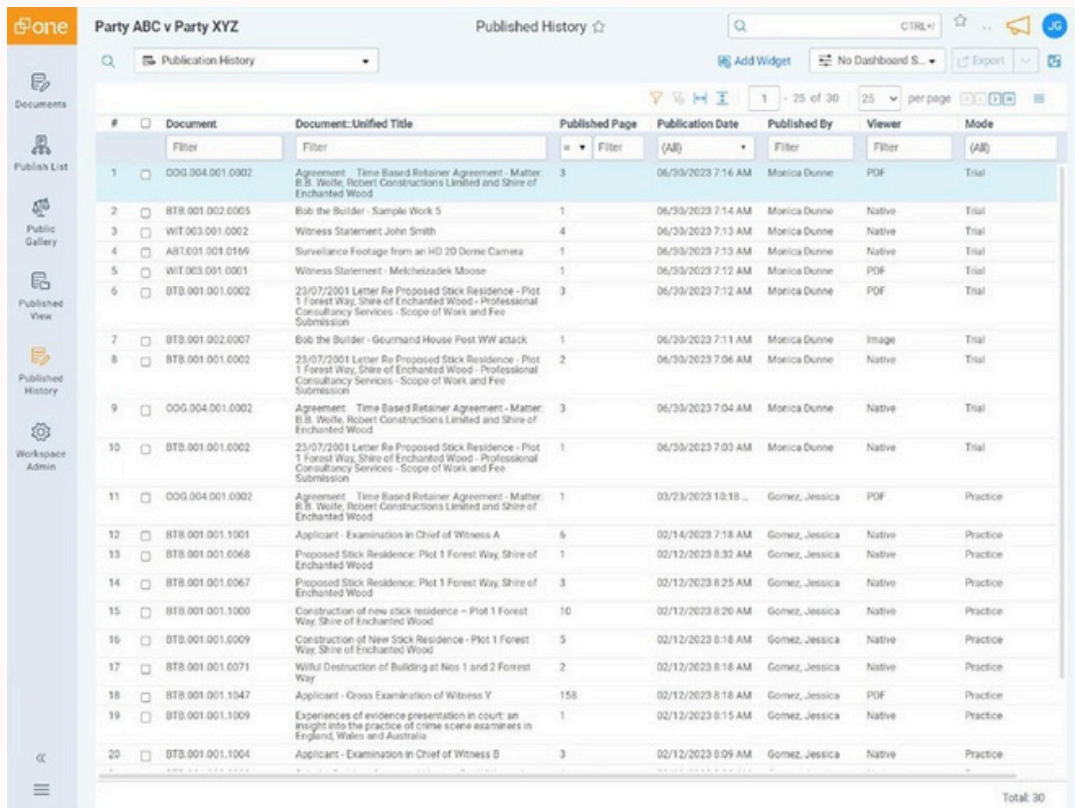

**"THE ABILITY TO PRACTICE OUR PRESENTATIONS IN ADVANCE IS A GAME CHANGER FOR OUR TEAM AND UNDOUBTEDLY LEADS TO BETTER CLIENT OUTCOMES"**

Comprehensive and defensible presentation logs

Ostentus automatically generates and preserves a comprehensive and defensible electronic record of your evidence presentation, eliminating post-hearing disputes and ensuring meticulous record-keeping. The log is available for access, download and distribution at any time during or following the hearing.
