RIDES A DESIKNIO X20 PINION C.1.9 CF

Some may think this is a great city bike for commuting and they would be correct. I bought the desiknio for different reasons. Since it is light weight it's ideal for taking long distances on my car and caravan racks. With the additional battery it goes long distance too. In the year of ownership its cycled in France, Italy, Switzerland and of course around my home county of Derbyshire.

RIDES A DESIKNIO X20 PINION C.1.9 CF

The Desiknio Pinion Urban C1.12 is an awesome machine & so beautifully made, it could hang on the wall as decoration. The ride though is faultless & it will become my "go to" city transport solution at home & when working abroad.

MAHLE EBIKE (X20 & X30)

TECHNOLOGY EXPLAINED

Mahle's X20 and X30 systems are among the most advanced lightweight drive units in the world — chosen by Desiknio for their subtle, natural feel and exceptional integration. The X30 offers smooth, responsive assistance ideal for relaxed urban riding, while the X20 introduces increased torque (55 Nm), faster engagement, and the lightest hub motor in its class at just 1.4 kg. Both systems pair with Mahle's slimline iX2 battery for up to 50–90 km of range, with optional range extenders for longer rides. Smart connectivity through the MySmartBike app gives access to ride data, tuning and diagnostics — all while maintaining Desiknio's clean, elegant aesthetic.
