WHY NOT TO BUY A FAMILY CARGO

IT'S SO GREAT HAVING THE KIDS IN THE

CAR IN TRAFFIC INSTEAD OF FEELING
NATURE PASS YOU BY

I CONSIDER SITTING IN TRAFFIC AN
ACTIVITY, DON'T LIKE THE OUTDOORS

I DON'T MIND GETTING PARKING TICKETS,

WHAT REAL PARENTS SAY

CHRIS B

RIDES A RIESE & MÜLLER CARRIE

We are using the car far less. We've got an old Golf and before purchasing our cargo bike our yearly service and MOT was around the £700 mark. But since buying the bike it's significantly dropped to £300 all in... that's without even thinking about fuel! We were typically filling up once a week, and now that's gone down to once a month. It's significantly helped us save.

HASSANNE

RIDES A TERN GSD S10 GEN3

The **TERN GSD GEN 3** has completely revolutionized our family's daily routine. School drop-offs and pickups, once a parking nightmare, are now smooth sailing and stress-free. The kids absolutely love it! Riding on the back is an adventure, and it's far more enjoyable for me too—no more rush hour car struggles. Beyond school, it's opened up so many possibilities. Park trips are effortless; we just hop on, arrive quickly, and never struggle with car parking again. The GSD Gen 3 isn't just a bike; it's a new way of life for us. It's fun, efficient, and gives us more freedom. If you want to transform your family's urban adventures, this is it!

WHAT REAL PARENTS SAY

JENNY

RIDES A TERN GSD S10 LX GEN2

I never thought the school run could feel like an adventure until we got our **GSD S10 LX** - it's our family's little magic carpet. The kids love every journey, it ties into chores seamlessly and feels very steady out on the Cornwall's lanes! The accessories make it ridiculously adaptable – rain cover one day, panniers the next – and I still can't get over how much fun it is to ride. We've swapped stress for fresh air and smiles. I'd give it 6 stars if I could.

AUDREY C

RIDES A TERN GSD

Arthur finishes school at 3:20, and Swimming Nature classes start at 3:45 which is a mad-rush. I plonk him on the bike and within 20 minutes he is there! I can even take the bike inside the building. We [also] don't have the issue of parking the car up in town to get stuff from the local shops, this is a major benefit.
