

# TERN BUYERS' GUIDE 2026

ENGINEERED TO HELP YOU DRIVE LESS AND RIDE MORE.

# WHY YOU'LL LOVE TERN

We have visited manufacturers around the world to find the true leaders in eBikes. Tern are one of them: committed to smart urban mobility, award-winning, and shaping the future of how families and city riders move. Made for real life, every Tern is engineered with precision, strength, and a belief that getting around town should be simple, practical, and joyful.

Having worked with Tern for many years, we've used our experience to handpick the very best of their broad range for this Buyer's Guide.

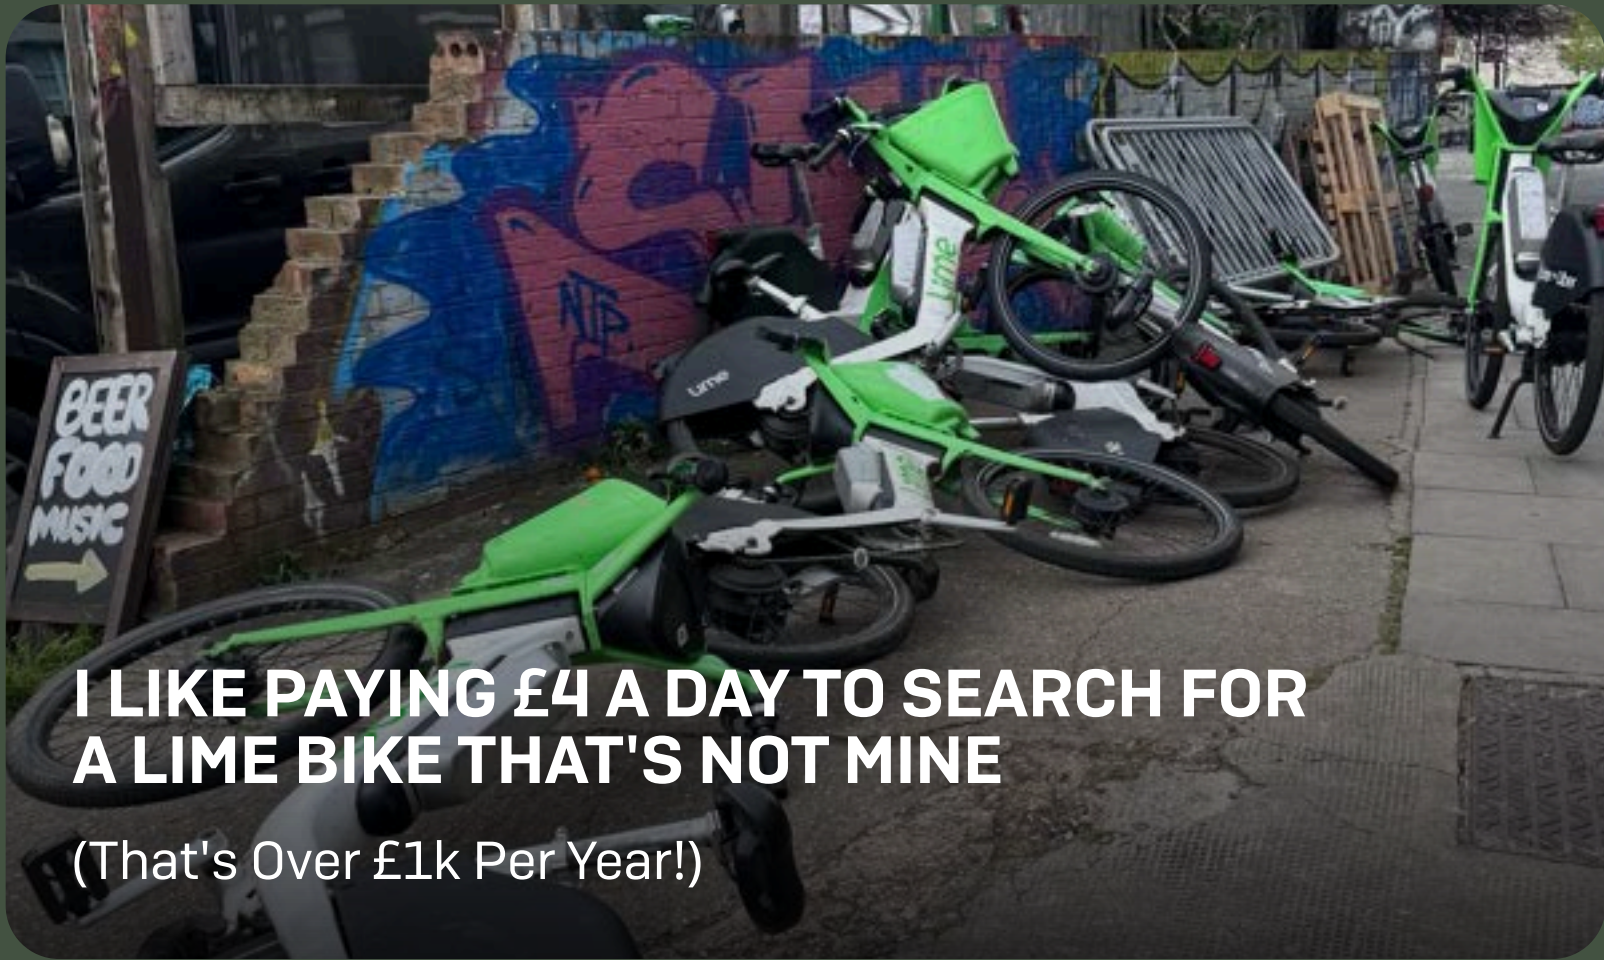

**WE'VE DONE THE HARD WORK - YOU'RE IN THE RIGHT PLACE.**

## RIDES A TERN GSD S10 GEN3

The **TERN GSD GEN 3** has completely revolutionized our family's daily routine. School drop-offs and pickups, once a parking nightmare, are now smooth sailing and stress-free. The kids absolutely love it! Riding on the back is an adventure, and it's far more enjoyable for me too—no more rush hour car struggles. Beyond school, it's opened up so many possibilities. Park trips are effortless; we just hop on, arrive quickly, and never struggle with car parking again. The GSD Gen 3 isn't just a bike; it's a new way of life for us. It's fun, efficient, and gives us more freedom. If you want to transform your family's urban adventures, this is it!

## RIDES A TERN GSD S10 LX GEN2

I never thought the school run could feel like an adventure until we got our **GSD S10 LX** - it's our family's little magic carpet. The kids love every journey, it ties into chores seamlessly and feels very steady out on the Cornwall's lanes! The accessories make it ridiculously adaptable – rain cover one day, panniers the next – and I still can't get over how much fun it is to ride. We've swapped stress for fresh air and smiles. I'd give it 6 stars if I could.

WHAT TO LOOK FOR IN A  
TERN EBIKE

Tern bikes are built for real-life riding. For carrying kids, the GSD and HSD offer stability and unmatched load capacity. If you want car-replacing ability in a compact package, the HSD is the ideal all-rounder. The Quick Haul Long gives you longtail versatility without the size or weight. The Vektron folds for easy storage and train travel, while the NBD offers ultra-low accessibility and confidence. And if you're heading beyond the city, the Orox brings true adventure range and carrying power.
