

Villa Cascada 3-Bedroom

If you've ever stood on an elevated terrace and felt the difference: the view, the breeze, the separation, Villa Cascada was designed for that feeling. Built into the slope, not despite it. Add a stand-alone guest house and that same feeling extends past your front door. Family and friends get their own kitchenette, living room, bedroom and bath, completely separate from the main villa. They come and go on their own schedule. You keep your terrace, your pool, and your view exactly as they were.

Price includes the lot, villa, landscaping, swimming pool, and service building.
